

Service Inclusions

STANDARD APPLICATIONS

ELEMENT	SUMMARY
1. Content Removal Applications	<p>Unless otherwise specified in the proposal, we will prepare and lodge a content removal application to Google Inc on behalf of your local Google extension ("Google") seeking to de-index the content found in a particular URL from Google search results.</p> <p>We will manage all correspondence with Google and/or a third-party platform in relation to your content removal application.</p>
2. Updates	<p>We will provide you with regular updates via email and via our client portal.</p>
3. Timeframes	<p>Up to 3 months of content removal application management from date of lodgment of original application.</p>
4. What happens if Google or a third-party says no?	<p>We will prepare and lodge 1 new standard content removal applications on the same content and platform at no further cost to you.</p>

COMPREHENSIVE APPLICATIONS

ELEMENT	SUMMARY
1. Content Removal Applications	<p>Unless otherwise specified in the proposal, we will prepare and lodge a content removal application to Google Inc on behalf of your local Google extension ("Google") seeking to de-index the content found in a particular URL from Google search results.</p> <p>We will manage all correspondence with Google and/or a third-party platform in relation to your content removal application.</p>
2. Updates	<p>We will provide you with regular updates via email, via our client portal and via telephone.</p>
3. Timeframes	<p>Up to 6 months of content removal application management from date of lodgment of original application.</p>
4. What happens if Google or a third-party says no?	<p>We will prepare and lodge up to 3 new comprehensive content removal applications on the same content and platform at no further cost.</p>

WHAT HAPPENS IF THE CONTENT COMES BACK?

If you have engaged our team to provide **COMPREHENSIVE APPLICATIONS**, at no further cost, we will make applications to remove content of the same nature within 6 months of the original de-indexing/removal.

METHODOLOGY

METHOD	SUMMARY
1. GOOGLE ("Method 1")	<p>As described in point one of page two, Internet Removals will attention a content removal application to Google INC on behalf of the relevant local Google extension. The application will seek to deindex the content found in a particular URL from Google search results.</p> <p>Successful applications with method 1 above, will result in the content being removed by Google INC rendering the content inaccessible via searches through the local Google extension.</p> <p>The Local Google extension is identified within our proposal.</p>
2. DIRECT ("Method 2")	<p>As described in point 1 of page 2 above, Internet Removals will focus on making content removal application(s) to Google unless otherwise specified in the proposal.</p> <p>If requested by you and agreed to by Internet Removals, will also attention a content removal application to the webmaster (original source of where the content is published) seeking removal of the content directly from their website.</p> <p>Internet Removals may also engage with the webhosts. Successful applications with method 2 above, will result in the content being removed from the website and deindexed from most search engines.</p>

***Success may be achieved through either of the above methods.**

Let's discuss your project.
